## Overdraft Services

Overdraft Related Fees	Truist does not charge Overdraft related fees <sup>2</sup> on this product.
Charged-Off Account Fee	This fee does not apply to Truist Confidence Savings
Overdraft Protection	Can only be used as Overdraft Protection for a Truist Confidence Account.  Overdraft Protection is an optional service that can help clients avoid declined transactions. The client can link a Truist Confidence Account (the "protected" account) to a Truist Confidence Savings deposit account (the "protector" account) and available funds are automatically transferred from the linked protector account when necessary to cover any shortfalls in the protected account. There is no fee for the Overdraft Protection transfer. The amount transferred is the exact amount of the overdraft.  If the linked protector account is a savings account, transfers will count towards the maximum number of six (6) withdrawals and transfers allowed per monthly statement cycle before a Withdrawal Limit Fee is incurred.  If your account does not have Overdraft Protection or Overdraft Protection is insufficient, transactions that exceed the account balance will typically be declined or returned.  Note: Savings accounts are not eligible to enroll in the Overdraft Protection Service as a protected account.

Posting Order	<p>Truist will post items to your account based on your available balance. The available balance can be impacted by pending transactions. Examples of common pending transactions can be found in the Bank Services Agreement. Once the available balance is determined, prior-day credits and debits will post before current-day credits and debits. Once prior-day credits and debits are determined, if any, transactions will post in order according to the groupings below:</p> <p><b>Deposits and credits</b> – All deposits and credits will be posted to the account first. This includes cash and check deposits and incoming transfers (i.e., direct deposits and wires) received before the cutoff time at the location the deposit or transfer was made.</p> <p><b>Bank-initiated transactions</b> – These transactions include corrections and Returned Deposited Item/Cashed Item.</p> <p><b>Client-initiated withdrawals and debits</b> – Withdrawals/payments that have been previously authorized and cannot be returned unpaid. This category includes debit card purchases, ATM withdrawals, account transfers and teller-cashed checks. If more than one of these transactions is received for payment from your account, the items are generally sorted and paid based on the date and time of the transaction. For a debit card transaction, if a merchant does not seek authorization from the bank at the time of the transaction, the date the transaction is received for payment from your account will be used.</p> <p><b>Client-initiated withdrawals and debits such as ACH (automated payments)</b> – Transactions such as bills that are paid by authorizing a third party to withdraw funds directly from your account. If there is more than one of these types of transactions, they will be sorted by the date and time that they are received. Multiple transactions that have the same time will be sorted and paid from lowest to highest serial number.</p> <p><b>Client-initiated checks</b> – Checks will be posted and sorted in sequential order.</p> <p><b>Bank fees</b> – Fees, such as the Monthly Maintenance Fee, will post to your account last. Please note that some fees will be posted to your account at the time they are incurred and others, like maintenance fees, will post last.</p>
